CheddarSuite + Sysco: Real-Time Pricing That Changes the Game

CheddarSuite now connects directly with Sysco's Electronic Data Interchange (EDI). Live Sysco pricing flows straight into your CheddarSuite account, eliminating manual updates and spreadsheets. **The result? Operators save time, gain accuracy, and unlock deeper financial control.**

Why It Matters

For Sysco customers, this integration doesn't just deliver live pricing — it amplifies the power of the entire CheddarSuite platform. With Sysco costs flowing into plate costing, reporting, scheduling, and inventory tools, operators can make decisions with confidence, adjust faster, and protect profitability.

Key Benefits of the Integration

- ❑ **Instant, accurate plate costing** – Menu prices always reflect true ingredient costs.
- ❑ **Up-to-date reporting** – See the impact of cost changes on food cost % and profitability.
- ❑ **Streamlined inventory management** – No more manual updates or reconciliation.
- ❑ **Stronger financial control** – Decisions backed by live Sysco data.

Exclusive Pricing for Sysco Customers

CheddarSuite All-In-One

\$169/mo (Regular price: \$379/mo)

One simple plan, all the tools you need.

**55%
off!**

Beyond Pricing: The Power of CheddarSuite

Inventory Management – Know what you have, what you need, and what it costs.

Scheduling & Communication – Keep your team in sync and reduce chaos.

Seamless Integrations – Connect with your POS, payroll (ADP), and more — with new integrations rolling out regularly to keep your restaurant connected and efficient.

Reporting & Forecasting – Instantly track food cost, labor, and profitability.

Centralized Operations – Replace paper, spreadsheets, and multiple apps with one easy system.
